MDRC Devadurga, Raichur
2019-2021
Secured: 88.6%

Under Graduation

Cambridge Institute of Technology, Bengaluru
2021-2025
Secured:85%(till 4th Sem)

SKILLS

- Creativity
- Communication
- Teamwork

TECH SKILLS

- Python
- Java
- GitHub
- Android Studio
- FullStack Basics
- IoT
- Operating System
- C
- Front End
- My SQL
- RDBMS
- MS Office
- VS Code
- FireBase

PROFILE

I am currently pursuing engineering in the branch of Information Science and Engineering. I am an enthusiast who likes to challenge myself and learn new things. I am always eager to expand my horizons and discover new possibilities.

SKILLS

Coding Languages

Good coding Experience | With practice
2020 - Present

I learnt several coding languages and I built responsive websites and projects and I'm doing a lot of practice. Majorly I know C, Python, Figma, Java, NodeJS, Frontend Tools, Django and Android Studio and some. I hosted two responsive websites.

Projects

Gas leakage detection | Internet of things
Oct 2022 - Jan 2023

Detection of leakages in gas pipelines is the project that was provided by Samsung in the "Samsung inauguration Campus" Course. I completed this project with a team.

E-Commerce B-C | Database management System
Jan 2022 - March 2023

E-Commerce business-to-customer website built using the Front End tools HTML, CSS, and JS and for the backend and admin side, I used Python with Django framework and SQL.

I personally worked on Small Projects to build great things.

Social Media Management

Websites and Platforms
Since 2020

Majorly I'm mostly managing my Social media like GitHub, LinkedIn, Hacker Rank and Coding Ninja. I made 821 contributions in 2023 on Git Hub and over 250+ on Coding Ninja. I cleared the Python Basic test in Hacker Rank web.

CERTIFICATES

SIC (Samsung) IoT
Varcons Technologies(Intern)
Ethical Hack (Webinar)
SpringBoard (DB & SQL,RDBMS)
FutureSkills Prime (Digital 101-AI)
Hacker Rank (Python)
